## YACHTBEACH - your own floating beach

Do you love to whiz across the water on your yacht, set your sails to the wind, and let your soul wander? If so, you surely know that feeling when you've dropped anchor in a beautiful cove but your sundeck always seems to be too small. With these new and innovative yacht platforms from YACHTBEACH now you can create your own private beach directly attached to your boat. This premium platform of european production was designed for performance-loving yacht owners. Now they and their sun-worshipping guests can enjoy the perfect island for reading, relaxing, or diving in and out of the water. YACHTBEACH can be a platform for fitness, yoga and mindfulness, or as a floating party lounge for the best sessions and funniest memories.

This piece of freedom can be combined in several ways. With its unique handle connection system you can easily build your ideal docking station for your Jet Ski, Tender, Seabob, SUP and much more.

Aesthetic soft, non-skid, durable saltwater and UV resistant materials guarantee luxurious and long-lasting comfort.

Yachtbeach Team is a mixture of creative, innovative water sports enthusiasts who have been deeply rooted in water sports and yachting for many years. We are particularly distinguished by our fast and customer-oriented work. Whether with the customers on site or concepts and projects that are planned via video meetings with the customer according to his ideas.

Certainly no wish remains unfulfilled at Yacht Beach. Convince yourself and have a piece of Unicat designed for your yacht that fits perfectly to your vessel, your needs. As a final highlight, your custom-made platform will be branded.

## 12-point YACHTBEACH Handle Connection Systems

- > allows for very comfortable and easy to use handling
- > enables multiple connection options
- > quick and easy installation
- > reduces risk of injury as no metal parts were used
- > provides an almost seamless surface together with the YACHTBEACH connector wedge

> marine velcro YACHTBEACH connector strap

> 12 point YACHTBEACH handle connection system

## Velcro Connector Pro

The Velcro Connector allows an easy & fast connection between different Yachtbeach products above the water, which enables multiple connection options. It consists of a buckle and a velcro, which is especially made for marine use. The buckle provides maximum strength and the crocodile Velcro offers a comfortable and aesthetic finish.

# CUSTOM MADE PRODUCTS

Let us build your dreams together! Yachtslides, climbing walls, pools, docks, or something different? There is NO LIMIT. Yachtbeach offers you uncountable possibilities to create more: space, freedom & fun!

Due to our experience in the watersports and superyacht industry we are able to develop innovative products of highest quality to meet the high demands. Our skilled team from POD International is at your side with help and advice starting from step one.

## Material

German companies and their products have a good reputation. We want to comply with this and use only the most innovative and high-quality raw materials for our products. Only fabrics that have passed all tests such as sequencing resistance, UV resistance, riptests, longevity are included in the extensive selection. With our D- rings, we only use saltwater-resistant steel. PVC, PVA are selected according to German standards. Durability, highest quality and material is our priority.

## Branding

No wish remain unfulfilled at Yacht beach, we can place the name of your yacht freely on your platforms on request. Your yacht appears including the Water toy area in one color and style if needed. We can place the name of your yacht, or a logo on any design on request – no wish remain unfulfilled at Yachtbeach

## Surface

**EVA surface:** soft and very comfortable material

**Anti Slip surface:** smaller in storage and suitable for projects where you would need more grip (work platforms, walkways etc.)

On bigger projects we also fully glue the surface material as it is easier to clean and care for. It also assures a flat looking EVA.

### Choose from different surface options:

22422  
EVA Teak

22424  
Anti Slip  
sanded PVC  
white

22423  
Anti Slip  
sanded PVC  
grey

22425  
Anti Slip  
sanded  
brown, black teak

## Custom-made products without compromises

All products can be customized and combined with each other, due to our fast and very strong handle connection system. Our experienced team is able to provide you within 1-2 days 3D renderings, that will perfectly fit to the rear of the yacht.

All bigger customized product will have 2 valves, in this way you can work with 2 hoses to inflate the product, which allows approx. 50% faster inflation. If you have 2 pumps the inflation will obviously be 100% faster.

# Welcome to the world of floating luxury!

The set up of Yachtbeach platforms is soo easy! Due to lightweight, very robust and durable materials, we reduce weight in the right places to make a very easy build-up.

The theme of set-up is 100% based on simplicity for crew and people who are busy with the assembly and dismantling. Crew suggestions help us to bring the Yachtbeach products further forward and to stand out through design, innovation, durability and crew friendliness. Because the Yachtbeach team deliberately includes these phases in their development process.

Yachtbeach Custom is the realization of any idea that a customer addresses to us. Starting with the contact, very fast processing, over the solution finding up to the logistics with air freight.

On request, a Yachtbeach Instructor will be happy to look after your crew and give advice on the set-up, set-down, storage and care of Yachtbeach products, if needed.

HIGH QUALITY PRODUCTS

## CUSTOM JETSKI AND TOY DOCKS

You need a space for all your watertoys which fits your needs exactly? We can make your dream come true and design the dock as you need it.

Create space for your Jetski, e-board, foil board, dive scooter, or would you need a work platform, or in general more space on the water? We have the solution for you - our platforms are made of 20cm high quality drop stitch material and simple to install, to remove and even to transport. Within minutes one platform is inflated and ready to float. D-rings, handles, bumpers, bathing ladders can be added as needed and of course, a branding with your yachts name or logo is possible as well.

## CUSTOM POOL

Yachtbeach Custom Pools are made to ensure maximum safety against unwanted sealife, such as jellyfish or other creatures and provide more fun and comfort at your boat. 20cm high quality drop stitch material ensures maximum stability to walk around, or to have some additional space to lounge. We try to keep storage as minimal as possible. Bigger pools can be made out of more pieces, which makes handling for the crew easier. Our experienced team, which is very close in contact with a lot of different crew members will work out the perfect solution for your yacht.

## CUSTOM SLIDE

Yacht slides are incredibly popular with guests and a perfect add on to any yacht. Our team has designed and installed hundreds of slides on yachts in the world. All slides are custom fitted to each yacht, a logo, or kicker can be added as well. We are glad to provide a solution for a custom slide, that will perfectly match to the colourways of your yacht and that will make installation easy for the entire crew.

## CUSTOM CLIMBING WALL

All climbing walls are custom fitted to each yacht. They can be built in any size or colour and have logos added, as needed. Our custom climbing walls are the perfect solution to get back onto the yacht after jumping or sliding down. We could create the perfect solution for the young and the young at heart.

### JETXTENDER - EXTEND YOUR JET SKI

Jet Ski or Dinghy? BOTH!

Have the ultimate fun on your Jet Ski with space for 6 more people! This innovative Jet Ski extension is the biggest party on the water! EU Certification as a boat!

JETXTENDER is an indispensable accessory for your Jet Ski. It looks and feels like a regular inflatable boat, but attaching it to a Jet Ski means no more outboard motor! Jet Ski owners love speed and manoeuvrability, but miss the room to take more passengers along. The JETXTENDER offers them the best of both worlds.

JETXTENDER is light and packs up so small that you can carry it on your Jet Ski. It inflates in just moments and is easy to attach. You can ride it with agility through very shallow waters. JETXTENDER also works great at both - high and low speeds, making it unrivalled in both - recreational or rescue applications.

With the Jetxtender you can take 6 people at maximum with you plus the additional person on the Jet Ski.

You can use it with any other Jet Ski, for extra space, buoyancy, stability, safety or visibility.

YOU WILL LOVE THIS GADGET!
